At 12:35 Thursday, Nov. 11, a fire was discovered at the house recently purchased and occupied by Mr. and Mrs. Leon Noyes on Gothic street. Neighbors saw flames bursting through the roof, near the chimney at the rear of the house and notified Mr. and Mrs. Noyes who were eating dinner. The South Paris fire department succeeded in confining the flames to the ell which was completely destroyed. The roof and upper story of the main part of the house was badly damaged. A large portion of the household goods were moved into William B. Russell's yard. Mr. Noyes has lived in the house only a few weeks.

Within a year it had been remodelled and hardwood floors, a bath room and electric lights had been installed and various other improvements had been made, also a large plate glass window had been added in front. Many people thought the fire whistle was to celebrate Armistice Day, so the people did not rush to the scene with the usual speed.

The garage was not damaged, Mr. and Mrs. Noyes will reside with Mr. and Mrs. Durgin while the repairs are made.

The new road is now open and in use from Main street, Norway, to the eastern end of Gary St., at J. E. Emery's. From that point it is necessary still to use the detour through the Mason Manufacturing Co. grounds. In about another week it will probably be opened through to the end of Pine street. TRADE IN NORWAY

During the past few months a great deal has been said in regard to lower prices.

It is a known fact that lower prices are to come, the height of high prices has been reached, but this does not mean that the very low prices can prevail all of a sudden—the decline must be gradual just as the increase in prices was gradual. At the present time many people expect prices to be reduced faster than is possible.

This is a trying time both to the manufacturer, retailer and the general public, and the interests of all are closely related. In the manufacturing of goods, costs consist of labor, material and the overhead expenses. Of these costs, labor is by far the largest item and is no longer the overhead expenses remain fully as high as formerly. The raw materials in some industries are some lower, which seems to be the only place where the manufacturer can reduce his selling price.

The manufacturing costs can only be brought down as fast as labor, material and the overhead expenses can be reduced, and of course, this is going to be a slow process.

A sudden cut in wages, for example, would mean a stoppage of production and the resulting scarcity of merchandise would certainly not bring about lower prices.

Many of the Metropolitan papers are full of extravagant claims, but we believe you can do better by purchasing at home. We also feel that the public served by this paper will do better by dealing with the merchants whose advertising appears in our columns each week. We personally know them to be up-to-date business men, who are trying their best to properly serve their customers, and make Norway a trade center, and we feel that they will give you lower prices as fast as possible. You will do better to trade at home where the advertisers truthfully state the merits of their wares, and deserve your patronage during this trying time as in the years gone by.

NORWAY AND VICINITY

The last wooden frame switch in the freight yards is soon to be replaced by a modern iron one. This piece of antique equipment is one among a few on the Grand Trunk to survive years of reconstruction. Twenty-five years ago iron switches on the Portland division were rare outside of terminals, now the wood frames of those days are a curiosity.

Katherine Ramsdell is assisting her brother, Alfred Ramsdell, in his shoe repairing shop while the factory is closed.

Albert C. McCready moved his family this week from Mrs. Tubbs' rent opposite the Congregational Church, to one of the new bungalows on Tucker street which he recently purchased.

Geo. L. Curtis came home from the army, Saturday, Nov. 6 and stayed till Wednesday, Nov. 17. He stopped in Portland to see his friends, Walter Ricker and Arthur Johnson.

E. S. Russell of South Woodstock has got settled in his new home at No. 1, Cummings place. Mr. Russell at one time was a jeweler and watch repairer here. This was before V. W. Hills came to town. For some years he worked in the shoe shop, so he is no stranger in the community. For 20 years he has worked for I. W. Andrews & son in their factory and mill at South Woodstock. He has been having a vacation, the past summer and consumed a good amount of gasoline in joy riding and sight seeing.

S. L. Foster is going to Brockton, Mass., on account of the continued ill health of his daughter Doris. Sel has been thinking on going South for the winter, but is now uncertain about it.

Jim H. Kerr was here from Rumford, recently, and says he is not going South this winter, as talked. He has taken a winter's job at Rumford. He is to build a mill in that city of brick, stone and wood.

"I don't believe those scales are correct," said Mrs. Scott Potte, as she stepped from the express office scales, the other night. "I've been up home (Chester French's) and have gained only one and one-half pounds—103 1-2. Last August I weighed only 90 pounds."

Two deer and three bucks were landed. The bucks were the largest ever taken from that section, one was an eight pointer, and two had ten points each. Rain and snow prevailed during their stay and the sun was visible only a few hours in the ten days. The last storm was severe in Northern Maine, bringing a heavy fall of snow followed with rain.

Lawrence DeCoteau, who is employed at Berlin, N. H., during shoe slack was home from Saturday afternoon until Sunday evening.

Alta Hall, after spending two months in Massachusetts, returned home, Saturday, for a brief stay.

Pythian Thanksgiving Ball

Penneessewasee Lodge No. 18, Knights of Pythias will hold their 37th annual Ball Thanksgiving night, Nov. 25 at Norway Opera House.

This popular event has been with us so many years, an extended notice is not necessary. The social affair has not grown moss covered or conservative with age, but has moved along with the changing times, and is now a modern ball room idea. Souvenir dance orders will present contras and jazz in an arrangement to please the older patrons not accustomed to the later day symphonies. The young people will find an excellent assortment of waltzes, two-steps and fox trots.

Music will be furnished by Bert Williams' Jazz Orchestra, Harold Anderson, director. The team made a hit at the first appearance recently and the good record will continue for this Pythian gathering. Ice cream on sale at intermission.

Floor manager, Elton L. Brown. Aids, Roland S. Nevers, William H. Smith, Donald B. Partridge, W. Arthur Lewis, Charles H. Billings, Edward J. Sharon. Honorary aids, Ernest Shaw, Hamilton Lodge; George Forbes, Fraternal Lodge; Walter Holden, Craigie Lodge; Lester McAllister, Hiawatha Lodge; W. E. Abbott, Valley Spring Lodge.

Norway Man Injured At Factory

William R. Bean escaped instant death Monday, while turning dowsels at the Mason Manufacturing Co. An eight-foot counter shaft and hangers attached to a floor some four feet above his head, fell and struck him across the back and shoulders. He was knocked down in the midst of revolving pulleys and thrashing belts, but escaped with a severe shaking and severe body blows. His injuries were treated at his home in Norway.

All was done so quickly and the mix-up so complete, just the part of the wreckage that struck him is not known. It is believed a hanger weighing some forty pounds delivered the most serious blow. He will return to his work, this week.

Surprise Party

Saturday evening, at the home of Mr. and Mrs. Harry Luck, Mrs. Benjamin Flood of Oxford, Mrs. Luck's mother, was given a surprise party in honor of her birthday. It is the custom of Mr. and Mrs. Flood to come to Norway every Saturday night to visit their daughter and husband. On her return from shopping she was taken completely by surprise to find a party of friends gathered, who included Mr. and Mrs. George F. Hathaway, Mr. and Mrs. Walter Luck, Nellie Smith, Mr. and Mrs. Homer R. Luck, Mr. and Mrs. George Robertson.

Mrs. Flood was presented with a bon bon dish as a souvenir of the occasion. Refreshments were served during the evening which included a beautiful birthday cake decorated with 58 lighted candles.

Oliver W. H. Judkins

Oliver W. H. Judkins died at his home at North Norway, Tuesday afternoon. He was 81 in August, and was a life-long resident of Norway, born Aug. 7, 1839, the son of Perry D. and Fanny P. Towne.

Nov. 21, 1859, he was united in marriage with Isabella J. Edwards, daughter of Lathrop and Mary J. Edwards of Otisfield. They were among the prosperous farmers of the town. Five children were born to them, all of whom are living: Eshburn T., who lives at the home farm, coming there from Albany after the death of Mrs. J. J. Jones, several years ago; Perry W., who lives in California; Albert W. of Upton; Mrs. Christina F. Twitchell and Mrs. Flora J. Cummings, who live on Fore street, Oxford. Mr. Cummings has been a member of Norway Grange for many years. He had been in failing health for some time and during his last days was tenderly cared for by his two daughters and son's wife.

Malcolm Gregg and Mrs. Blanchard of Andover started for their winter home in Weston, Mass., last Friday. Malcolm reports a busy season for the past five months. Everything to do on the farm and no help. On the 7th he killed a seven months old Berkshire pig that weighed 274 pounds. The pig ran in the pasture and was fed on milk and mixed feed up to the time of fattening, then corn was added.

Mary Gauthier won the watch in the guessing contest at Hills' Jewelry Store. A number of watches were guessed the right number was a watch.

John Spencer's hand is improving slowly from the injury on a saw at the Paris Manufacturing Co., recently. He lost the tip of the thumb, a portion of the index finger and the middle finger to the index joint on the left hand. He is at his home, the Gilbert place, on Water street.

Mr. and Mrs. Prince Steward were called to Phillips Monday morning by the serious illness of Mr. Steward's mother. If your neighbor is reading your Advertiser, suggest that he subscribe so as to let you borrow a while and thus even up accounts.

The rooms in the Robert Noyes block, recently occupied as Democratic Headquarters, has been rented by the Beal's Tavern Loafers, and will be occupied by them after the closing of the Tavern. The travelling public are invited to make headquarters there while in town.

Madelyn Proctor of Auburn spent a week-end with Mr. and Mrs. Chas. C. Wood, Beal street.

James Chaffin, who has been visiting his mother, Mrs. Emma Chaffin, and brother, Eugene Chaffin, the past few weeks, leaves for a short visit with his sister in Tucson, Ariz. Within a short time he will commence a three-year apprenticeship in a tractor plant in that place, learning the business from the ground, demonstrating working through the western states where gasoline power is used on a large scale.

George P. Downing of Auburn was here over the week end.

One of the largest crowds for the season witnessed Fatty Arbuckle in "The son witnessed Fatty Arbuckle in "The Round Up" at Rex Theatre Armistice Day evening. It was a typical holiday day evening with everybody in sympathy with Fatty in a new role. Manager DeCoteau considers this comedian one of his best attractions and sure fire laugh maker.

American Legion Dance

The first annual Armistice Dance held under the auspices of W. H. Stone Post No. 82, American Legion, attracted a large gathering into Norway Opera House, Thursday evening. An order of seventeen numbers with three extras, comprising one-steps, waltzes and fox trots with no contras was enjoyed by at least two hundred dancers. A good attendance also enjoyed the sport, the music and decorations from the balcony.

Flags and hunting were tastefully arranged in front of the stage and a striking background on the interior setting. While the United States flags naturally predominated, the national colors of Great Britain and France were placed in conspicuous points. Colored lights were used effectively especially during the "moonlight" waltzes.

Beside the tag sale carried on during the day, a cake contest went also, with the final award determined by a lucky ticket. Mr. Krock of the Alberta Cafe won the cake with No. 47.

Anderson's Orchestra of seven pieces furnished excellent music and were repeatedly encored.

Socially and financially the first annual was a success and the local Post will have a nest egg in the treasury to swell the funds for a Post home.

Wearry Club Formed

A new club has been organized to perpetuate the good fellowship radiating from Bob Seavey, Toney Young and Beals Tavern. The rooms recently used as the Democratic Headquarters have been secured for their stamping ground and council chamber. The name "Wearry Club" will be adopted, and the "five" is the fraternalizing spot. This is in no sense a busy man's organization and none of that breed are eligible for membership. The chief mourners are Capt. Mel Sampson, Fred W. Sanborn, Elgin A. Greenleaf, Nate Merrill, John Sampson and others who have ornamented the Tavern office.

Reception at Grange Hall

The reception Wednesday evening given by the W. C. T. U. to the teachers, parents and members of the school board was very well attended in spite of the unpleasant weather.

Mr. D. L. Joslin, chairman of the entertainment committee, introduced the president of the Union, Mrs. Jennie Bates Russell, who gave a very pleasing address of welcome which was ably responded to by Hugh Pendergast, member of the school board. Following this a short program was very nicely given, consisting of:

Solo... Mrs. Bessie Foss
Address... Mrs. Garcelon, Supt. Paris Schools
Solo... Mrs. Cummings and Ruth Akers
Solo... Mrs. Cummings and Ruth Akers

After the program, Prof. A. C. Parker gave a splendid talk on the subject of the chassis now in use. The top is enclosed, has electric lights, is heated and fitted with electric push button system to signal the driver. Twenty passengers can be accommodated comfortably. This outfit goes into commission next week on a permanent time schedule with Ted Young as driver. For the next few days the three seated truck will make the trips while Ted Young is shifting bodies at Springfield.

This is a move which may settle the question for the winter and possibly for years. The new up to date conveyance is worth trying out as the Norway & So. Paris Transfer Co. appear willing to take a sporting chance upon the investment and do the right thing for both communities.

William Kneeland, who is employed in a G. T. R. construction crew stationed at North Stratford, N. H., was at his home here over the week end.

Harry F. Greenleaf is planning to leave his farm in Northwest Norway and move to the village in the near future. He owns a place on Pleasant street which has sufficient land for the keeping of a cow and horse. It is no use to try to carry on a big farm and hire help. It can't be done, and he is not able to do all the work, hence he is to sell out. Forty-three years he has lived on this farm.

TRUTH TRIUMPHS

Norway Citizens Testify for the Public Benefit

A truthful statement of a Norway citizen, given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, sleeplessness, urinary disorders or any form of kidney ills, use a tested kidney medicine.

A Norway citizen tells of Doan's Kidney Pills.

Could you demand more convincing proof of merit?

John F. Sampson, prop., painting estab. 174 Main street, Norway, says: "I was feeling run down and miserable for quite a long time. I was tired and nervous and my kidneys didn't act regularly. At times the secretions passed too frequently and then again they were scanty. My head ached night and day. A friend advised me to try Doan's Kidney Pills, so I got three boxes at Stone's Drug Store. When I had finished taking them, the trouble left me and I have not been bothered since. I can certainly recommend Doan's Kidney Pills to anyone afflicted likewise."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sampson had. Poster-Milburn Co., Mfrs., Buffalo, N. Y.

Maine State Chamber of Commerce

Last May the State of Maine Chamber of Commerce joined with the Agricultural League, to unite forces to do all that is possible for the benefit and promotion of the many good causes which are being presented to the people of the State of Maine.

For this purpose a general committee was chosen for the State, and County committees were chosen representing each County, and their men were selected for the different places, that seemed to be fitted for the work, and such as had previous experience that would make them a benefit to the organization.

Several different directorates were formed, for different duties and one member from each county represented that county at the full board for the State.

The members chosen for the different directorates from Oxford County were, viz.:

BERTRAND G. McINTIRE, Norway, State Executive Council.

L. M. CARROLL, Norway, Industrial.

GEORGE R. MORTON, South Paris, Commercial.

MRS. L. L. MASON, South Paris, Home.

JOHN A. HADLEY, Rumford, Service.

CHESTER JORDAN, Rumford, Labor.

Like all Chambers of Commerce, the work proposed to do is to bring before the people the necessary facts and information, regarding improvements which will be a benefit to the state, and among the many subjects that have been brought up by this convention of men and women, perhaps the most noteworthy are these:

LOWER RATES-BETTER TRANSPORTATION

Better freight rates, from Maine to distant points. More and better steamship routes from Maine to all points.

HEALTH

The State Chamber of Commerce will use its best efforts to see that a doctor or nurse is supplied to every rural district in Maine where the need exists.

It will assist in every possible way to see that our one medical college at Bowdoin is continued at a high standard, in order that proper Health instruction may be provided to meet the needs of rural Maine.

It will urge the establishment of scholarships for training at the medical college of young men and women who will agree to practice in the rural districts.

EDUCATION

The State Chamber of Commerce will use its efforts to better the Educational conditions in the rural districts of Maine.

It will urge the maintenance of sufficient Normal Schools to supply trained teachers for rural communities.

It will urge that adequate salaries be paid to attract the best talent for the teaching profession.

MARKETS

The State Chamber of Commerce will urge the establishment of warehouses and cold storage plants in centers where needed throughout the State.

CULTIVATE OUR ABANDONED FARMS

The State Chamber of Commerce will use its best efforts, in the best way that seems possible, to fill our many abandoned farms with hard working and contented farmers, and to raise crops of corn, apples, potatoes and grass where nothing but bushes and weeds are growing now.

ATTRACT THE SUMMER VISITORS

We will do the many things that may be done to attract tourists, who wish to spend their vacations and their money in this State. Maine has the most wonderful and beautiful lakes, rivers and ponds in the whole country. Its coast line is the most beautiful, its forests and rivers the most attractive for

the sportsmen and the lovers of beautiful scenery. Let us try and capitalize the natural gifts that have been given us and let them help to furnish us with wealth that we need.

PROMOTE NEW BUSINESS BY WISE TAXATION

The Chamber of Commerce will urge the enactment of such laws as will tend to promote the building up of new business, in the places for which such business is adapted, to give aid where aid is needed, and not to over tax where excessive taxes, are ruinous or detrimental, for the best interests of the people of the State.

DEVELOP AND USE OUR WATER POWERS

Maine has more water power, developed and undeveloped, than any other state, and it seems that in the wise planning of the universe, this power was given us for a purpose.

Let us urge the passing of such laws that will be wise and liberal, to use this power, in its broadest sense for the upbuilding of our state and for the welfare of our people.

WE NEED MONEY TO CARRY ON THIS WORK AND TO ACCOMPLISH THESE OBJECTS

In order to accomplish these purposes the first thing is to have money to work with, to establish headquarters in Portland, with a manager and clerks, to do all that seems to be necessary and best to accomplish the good work that is being attempted.

For this purpose the state of Maine is asked to raise \$40,000.00 and the Oxford County quota to be \$1,600.00 and this advertisement is to ask the people of Oxford County who are interested in the above work to send their contributions, freely and willingly for this purpose.

There are no paid officials whose duty it is to collect the money or to go about asking for same, but for so good a cause as the above it seems there should be a ready response.

With the necessary money to work with, and with the experience of the business men behind this movement, it hardly seems possible that the money will fail to be spent to good advantage, or that the seed sown will fail to bear good fruit.

This organization is non political, there are representatives of all parties, the only quality asked for in its executives is that they shall be capable, efficient and honest men, who have the welfare of the State at heart, and who have had experience to make them good men for the work they are asked to do.

This is written for the purpose of raising the necessary money to carry on this good work, and it is earnestly hoped that every reader will consider that this is a personal appeal to them, and whether they are capable of giving little or much, anything that is sent will be very gratefully received and every cent will be used wisely and with the utmost economy for the good of the people of the State of Maine, for the above named objects and such other good objects as may come up from time to time.

We are very often asked to contribute to many and various purposes, all of them for good causes, and with good intentions, but some of them rather vague and with the object somewhat hidden in the mists of distance and uncertainty, but this object is right at home, where we can see the results. We know the objects aimed at are good and right, and that the State of Maine will be a better state to live in if these purposes are accomplished.

We trust that the local Chambers of Commerce and Boards of Trade, Granges, the manufacturing establishments, all Savings Banks, National Banks and Trust Companies, corporations of all kinds and stores, as well as individuals, will act promptly and liberally.

Remember that no member of any committee benefits in any way, excepting for the good that will come from this organization. There are no salaries, no travelling expenses, no reward in any way except the satisfaction of trying to do what we can for the good of the State of Maine.

This favor is respectfully asked by the Oxford County members of this organization.

DO NOT WAIT TO BE SOLICITED

Kindly have checks made out to State of Maine Chamber of Commerce and forward same to George R. Morton, South Paris, Maine, Secretary for Oxford County.

Mrs. Lizzie Holden raised from one Blue Pear Maine apple tree, 26 bushels of apples. Also from six hills of pie pumpkin seeds she raised 132 large pumpkins, besides a lot of small ones. Beat that if you can.

A number of farmers, who had their cattle pastured away from home, are having a hard time to get them.

Mr. and Mrs. Lawrence Spiller from Portland have been visiting his sister, Mrs. Grace Dyer, and family, a part of last week. While there they took one of the horses in a farm wagon and started to the station with some potatoes and apples. The horse became unmanageable, throwing them out and hurting them badly.

BATES—WEST PARIS

Lynn Rowe has bought the Henry Tuell place and moved into it and rented his former home to his brother, Harry Rowe and family.

Mrs. Esther Tuell went to Portland last week to spend the winter with her daughter, Mrs. I. L. Bowker. She has let a part of her house to Clarence Stearns and family for the winter.

The high school is going to give an entertainment this Friday evening in the grange hall. The program will consist of a variety of music, songs, school orchestra, minuet dances, etc. They have spent quite a lot of time rehearsing and have something worth hearing.

Maj. Geo. C. Webber of Auburn gave a very interesting address in the grange hall, Amistice night. His subject was the "Forward Look." He is a very able speaker and his address was instructive, patriotic and entertaining. The high school sang two or three selections and Olga McKee played a piano solo at the close. Mrs. F. E. Wheeler, chairman of the Red Cross, presented the Red Cross annual membership week and discussed what might be done with the home benefit share of the amount collected. The evening program was opened by prayer by Rev. H. H. Hathaway and Rev. H. A. Markley introduced the speaker and pronounced the benediction.

At the grange meeting last Saturday the amount cleared from the grange fair was announced to be \$131.20. The lecturer's program consisted of a question discussion and a vocal solo by Louvie Penabody. At the next meeting, Nov. 27, Dr. G. M. Twitchell of Auburn is expected who will give an illustrated lecture on "How I Supported a Family on a Nine-Acre Farm." Grange voted to make it an open meeting during the program.

The grade schools are going to give an entertainment in Grange Hall next Tuesday evening.

Mrs. Josephine Bates, Mrs. Columbia Dunham and Mrs. Martha Hill were entertained at dinner Tuesday by Mrs. S. T. White. The average age of these ladies is eighty years. They enjoyed their visit together and the hostess enjoyed it as much as they.

Mrs. Cora Wood

The remains of Mrs. Alice Cora Sparks-Wood were brought here Friday, Nov. 5 from Boston for interment beside her husband, John F. Wood, in West Paris Cemetery. Mrs. Wood died very suddenly of heart failure at the home of a friend in Winthrop, Mass., where she was visiting. A funeral service was held at Roxbury, Mass. Prayer was offered here at the grave by Rev. H. A. Markley. Mrs. Wood will be well remembered here as she used to live at Snow's Falls until she went to Massachusetts two or three years ago. Her husband was engaged in the linen manufactory at Snow's Falls while it was in operation.

She was a highly talented woman and educated in elocution, voice culture and vocal music. For several years after Mr. Wood's death, she trained the high school speakers, coached local dramas and gave readings at entertainments and in the grange in which she was a great help.

She is survived by a sister, Mrs. Delora Ryder of Cleveland, Ohio; a brother, Reuben Sparks of Boston, and five nephews, George, Harold, Averill Sparks of Boston, Hector Sparks of New York, John Sparks of Paris; two nieces, Mrs. Alice Sparks Godsoe of Dorchester, Mass., and Mrs. Delora Sparks Smith of West Paris, also a step-son, Fred Wood of Boston. Two of these nephews and two nieces were given a home with Mr. and Mrs. Wood.

Mrs. Wood was born in Provincetown in 1858. The remains were accompanied here by Fred Wood and Mr. and Mrs. L. W. Godsoe.

She had many warm friends here in the Universalist Church where she attended when opportunity offered and in the Grange where she attended and at Pomona, always ready with a reading or a song to help in the entertainment wherever she went. Her genial, pleasant face and graceful bearing will long be remembered by the people here where her sudden death was such a surprise to everybody, young and old.

Mrs. Wood was a member of Abigail Whitman Chapter, D. A. R. of Norway.

You never waste heat
that is produced right on the spot

YOU would certainly consider it a great waste to keep a light burning in every room of your house. It is even more wasteful to keep the whole house at the same temperature all the time. Housekeepers everywhere are discovering that there is a proper use for general heat and a proper use for local heat—produced on the spot.

General heat in all parts of the house and local heat from a Perfection Oil Heater—where you need extra, comfortable warmth.

Keep warm and keep well

It is almost impossible to keep the cozy

spots safe and comfortable with general heat. Drafts will come in through window sashes and door jambs.

The Perfection goes anywhere and gives you the full benefit of its fresh, direct heat whenever you need it. Easy to light, convenient, clean and attractive—the Perfection is a necessity and ornament in every house. Burns about 10 hours on a gallon of kerosene.

Leading hardware, housefurnishing and department stores sell the Perfection Oil Heater. Your dealer will explain its simplicity and many advantages to you. Look at one today.

For best results use Socony Kerosene.

SOON TO HAVE ELECTRICITY

A number of Maine towns that have never before enjoyed the benefits of electric current, will have all the comforts and conveniences that come with the use of electricity this winter. The Central Maine Power Company is making several line extensions and is bending every effort to finish these lines before winter sets in.

This has been an active construction year on the lines of the company. The big high tension line from Farmington to Lewiston, a distance of 30 miles, was built in a month. A new high tension line from Waterville to Skowhegan and still another from Skowhegan to Guilford are being built at the present time. These are important links in the company's interconnected system. A new service line from So. Paris to W. Paris and Paris, a distance of 10-12 miles, is partially completed. The poles are half set and houses along the line are being wired, ready to take the current as soon as it is made available through the new line.

THE FOUNDATION OF THE TEMPLE

The foundation of the Temple of Civilization is work. No lotus land, or Socialist Utopia, ever can lift a people to prosperity or happiness.

Whether a nation ever should be too proud to fight, is conjectural, but that a nation should be too proud to work is not conceivable in the philosophy of material human progress. It is true that "man does not live by bread alone," but it is also true that man does not live at all unless he earns the bread; or, if he does live without earning it, he is cheating those who have labored to produce it.

But multitudes of folk do not work any more than necessity compels. Germany, in the interest of national prosperity, and to hasten the readjustment of her internal affairs, is putting into force a practical substitute for universal military training by compulsory universal work service. All those within the former military age, and subject to arbitrary military service from which they derived nothing, are expected to contribute one year's service for the general good.

Compelling men to work usually results unsuccessfully. The Lenin Government is having trouble with that problem just now. Paradoxically, men always will fight more willingly than they will work. But the germ of wisdom is back of this German effort toward reconstruction. The plan could not succeed in any other country. It may be more successful where people for centuries have been accustomed to taking orders.

Voluntary work service, intelligent in ever, must continue to be the formula upon which civilization builds and endures.

SOME ANCIENT NORWAY PAPERS

Rilla Marston, North Waterford, lets us look at a couple of old Norway Advertisers. Both papers are addressed to A. Marston, which we presume is a relative of hers, who received these papers fresh from the hand printing press, 74 and 73 years ago.

The oldest one has 5 columns to the page, or 20 columns, and the other 24 columns. Mr. E. Plummer, the printer and publisher, had increased the size of the sheet. The papers show prosperity and typographically look well. The only local feature is the advertising. Local news at that time was unknown.

Nathaniel Bennett was selling cider vinegar by the barrel for 10 cents a gallon, or at retail for twelve and one-half cents. Anthony Bennett was selling Crotch and Lever Stump machines, and S. Greenleaf, molasses.

Charles McFadden was operating the South Paris Tannery and paying cash for hides. Isaiah Knight was selling hardware and David Adams grave-stones at South Paris.

There were two marriages: Solomon S. Hall to Ruth B. Smith, both of Norway. and Rev. T. J. Tenney was the minister; also Levi M. Wines, aged 17 years, was married to Electa Presby, aged 13. Both of Errol, N. H.

Patent medicines are extensively advertised, including "Joyful Intelligence! Another Life Saved!" Also, "Sarsaparilla and Tomato Bitters."

The Oxford County Agricultural Society was to hold their fair at Waterford, Oct. 21 and 22. The program is given. At 11 o'clock on Thursday Asa Barton, Esq., was to make an address in the "meeting-house" and after which, the members with such as may join them, will form a procession and march to the Kimball Hotel and partake of a social dinner.

The above was from the paper published, Oct. 16, 1846.

In the paper of July 23, 1847, there is an editorial for shorter hours of labor. Ten hours was considered long enough to labor. The same arguments were then used as the present day, only now the appeal is 8 hours instead of 10.

A railroad meeting was held at South Paris to remonstrate against granting a charter for a railroad from Augusta to Skowhegan. Strong resolutions were adopted and sent to the Senators and Representatives of Oxford County. Abijah Hall was chairman and Asa Thayer, Jr., secretary of the meeting. The objection was on the ground that the charter would injure the Atlantic and St. Lawrence and Androscoggin and Kennebec roads already granted and that the legislature should not listen to the prayer of Abner Coburn and others of Skowhegan.

Two deaths are given: July 16th, Geo. E., oldest son of Elliott Smith, esq., aged 15 years and 3 months. Then followed an obituary written by "T. J. T." whom we presume was Rev. T. J. Tenney of the Universalist church. The other death occurred, July 5th. Oldest son of Andrew and Olive Mills, aged 15 years and five months.

Brown & Co. and E. C. Shackley were extensive advertisers. Prices were omitted in every instance. Simple statement of what they had to sell or wanted to buy.

Geo. L. Beal had finished his apprenticeship at the University Bindery, Cambridge, Mass., and opened a book bindery here over the book store of Robt. Noyes, who also advertised to do book binding and run a drug store and sell patent medicines.

A copy of the Norway Advertiser of Sept. 5, 1845, is before me. The office and press was then owned or operated by Ira Berry.

Another copy of Oct. 4, 1850, is on our desk. Mark H. Dunnell was the editor and proprietor.

The paper changed owners pretty often in those days. The fact is it didn't pay. Unless under the ownership of Geo. W. Millett, in the late fifties, the Advertiser never did pay until it came into the possession of its present owner.

The two copies above mentioned were sent us by Lillian Bisbee of Norway.

MANCHESTER MAN

NOW FEELS FINE

Payant Feared He Would Have To Quit
Work Altogether Before He Got
Tanlac

"My first bottle of Tanlac helped me
so much that I just kept on taking it un-
til I'm now a well man," said Jean Pay-
ant of 15 Marion St., Manchester, N. H.

"Before I got Tanlac," he said, "I
suffered for two years from a bad case
of stomach trouble, and kept getting
worse all the time until finally I could
scarcely eat even the lightest kind of
food. Everything I ate caused a de-
pressed feeling in the pit of my stomach,
and I suffered terribly from gas which
crowded up into my chest, almost cutting
off my breath. I had such severe at-
tacks of dizziness that I could see nothing
in front of me, and at times became so
weak I couldn't stand up. My nerves
were so upset I would jump at the least
little noise, and my sleep was very rest-
less. Nothing helped me, and my con-
dition became so bad I began to worry
for fear I would have to give up my work
altogether."

"After reading where some of my
friends had been helped by Tanlac I
made up my mind to try it, and I got
so much relief from the very first bottle
that I lost no time in getting another. I
have taken four bottles now and it has
done me so much good that I just can't
say enough for it. My appetite is so
spry that I eat three big hearty meals
each day and thoroughly enjoy every bite.
Everything agrees with me perfectly, too,
for I'm never bothered with that de-
pressed feeling, bloating, shortness of
breath or any other form of indigestion.
My nerves are quiet, my sleep is refresh-
ing and I enjoy my work more than ever
now and never feel tired out. Why Tan-
lac has helped me until I feel better in
every way than I ever have in my life.
I hope other suffering people will benefit
by my experience."

Tanlac is sold in Norway by A. L.
Clark Drug Co.; in West Paris by S. F.
Clark; O. H. Haskell, Sweden, R. F. D.
Harrison; Messrs. Hutchins & Webb, No.
Fryeburg; Kiser Bros., Peru, and Mrs.

IMPROVEMENT OF Bus Service and the Reduction of Fare

We expect in the course of a few days to install our new closed bus in Norway and Paris Transfer Service. We are going the limit to make this service as comfortable and efficient as possible. Our car is of the type shown in this cut, and the most widely used for bus service. We have also decided to reduce the fare to a straight 10c base and we hope that with the small depreciation and expense due to the new road conditions that we can make this a permanent fare. But we must have the cooperation of everyone in Norway and South Paris to make it a success.

Our schedule will be somewhat curtailed for the coming week or so, till we can make our permanent change, when we will try and have new time cards in every household.

We are trying our best to serve you best. Help us.

OXFORD**Armistice Day Anniversary**

T. A. Roberts Women's Relief Corps 72 of Oxford observed Armistice Anniversary for the Elmer D. Anderson Post 112 American Legion and ex-soldiers at the Oxford Spring Sanatorium by giving them a first-class chicken pie supper at the Methodist vestry. The 250 guests present, including the soldiers and their wives, members of the Corps and their husbands, were ushered in from the church by Mildred Poole, Inez Farris, Iva Record, Gertrude Reed, and Esther Bean. Each girl carried an American flag and seated the guests at the tables which were overflowing with chicken pies, cranberry sauce, several kinds of pickles, tarts, cakes, cream, lemon, custard and chocolate pies and hot coffee. Thanks to the generosity of the people of Oxford and surrounding towns, there was such an abundance of food on hand that it was possible to have an attractive sale after supper. The supper committee consisted of Mrs. Etta Curtis, chairman; assisted by Mrs. Jennie Adams, Mrs. Ella Whitney, Mrs. May Hanscom, Mrs. Mamie Langan, Mrs. Charlotte Hunting and Mrs. Lillian Teague. Mrs. Margaret Poole had charge of a most efficient force of waitresses including Mrs. Emma Belano, Mrs. Edith Kemp, Mrs. Lillian Heslop, Mrs. Rosie Daniels, and Iva Record, while Mrs. Edith Dunn, Mrs. Emma Pike, Mrs. Mamie Glover and Mrs. Belle Whitman served the waitresses from the kitchen. After the supper the soldiers gave the Corps a rising vote of thanks and three hearty cheers.

In the evening all adjourned to Robinson Hall where the patriotic exercises "End Of War" was given by 28 school girls under the direction of the primary school teacher, Vera Paine. The girls were all dressed in white and wore red, white and blue caps and scarves. Each girl carried a U. S. shield with a letter which she turned after a short verse. The girls representing each were Theodora Daniels, Grace Treblecock, Helen Heslop and Loretta Bonney. In the High Line were Doris Whitman, Bessie Treblecock, Virginia Greenleaf and Leona Smith, while in back of these was the Pershing line with Beulah Grover, Grace Davis, Etta Smith, Addie Martin, Ida Poole, Ruth Whitman and Charbel Smith. Next came the Wilson line with Agnes Langan, Doris Heslop, Hazel Treblecock, Ada Grover, Dorothy McAllister and Louise Roderick. In the Peace line were Ethel Dunbar, Nellie Poole, Madeline Smith, Florence Poole and Marguerite Whitman. Liberty was represented by Winsola Bonney. At the end of the exercises, America was sung and a Tableau was given.

The one-act farce, "Rooney's Restaurant" which followed the drill proved to be a great success. Many local names were mentioned and the audience enjoyed a good laugh. The cast of characters: Pat Rooney, a son of the Bogs, John Quinn, Jr., Swell Head, a dude, Otto Holden

Reckless Ralph, the terror of the Plains... Mr. Fearful... Benedict... Richard Sales... Mrs. Fearful... Ida Stone... Cynthia Gatchem... Elsie Bowie... After the drama the hall was quickly cleared of chairs and excellent music for the dance and everyone had an excellent time. The entertainment committee consisted of Mrs. Leontine Stiles, Chairman; Mrs. Evelyn Farrington, Mrs. Nellie Hayes and Mrs. Pearl Holden, who appreciated the work of those who helped to make the evening such an unusual big success. The 3rd drama, entitled, "The False Charge," will be given at Robinson Hall, Tuesday evening, Nov. 23, followed by a dance, under the auspices of the Oxford Spring Boys. Shaw's Jazz Orchestra will furnish music.

Opportunity Knocks But Once

We have a pure-bred Holstein bull calf which we will loan to a breeder for three years. There are three strings to this offer; the herd into which he goes must be free from tuberculosis and abortion (as our herd is), the breeder must agree to breed only his own stock to the bull, or stock which are free from disease, and the breeder who gets him must be a responsible party.

This calf, 3-5 white, is without exaggeration the best individual ever bred at the farm. He is 4 months old and weighs nearly 600 lbs. He is by King Hengerveld Alcartra. His dam is Eastman DeKol Mercedes. He carries the blood of King Segis through both dam and sire. He is the grandson of King Segis Pontiac Alcartra. He is good enough to breed to the get of the Alcartras which we now have as heifers.

This bull is not for sale.

And so, Mr. Breeder, if you can qualify to embrace this opportunity, write or wire. This announcement will appear but once.
